

# WORLDWIDE AND INTERNATIONAL FREIGHT MOVEMENTS

**'Our international freight services cover the provision and management of import and export services by road, sea and air...'**

## FREIGHTWORKS

### EXPORT FREIGHT BROKERS

Our freight team are qualified to find you a delivery solution, whether by air, sea or overland. From small, specialist, time critical products where service failures could literally be a matter of life and death, to large, out of gauge project cargo and chartered aircraft.

Spatial have a creative approach to helping you find the best commercial options for your deliveries and our teams are structured to deliver the solutions to you quickly, efficiently and competitively.

Aligning ourselves strategically with our global partners and working with our network of agents worldwide, we can handle all aspects of your international movement from collection and packing, through to shipment, clearance and final delivery.

The freight industry is enormously competitive and you rightly expect your carrier to show the same professionalism and efficiency in delivering your orders, as you showed in winning them. Being confident in your operator is paramount and at Spatial we earn that confidence by working with you, in partnership, to deliver a first class service – on time, every time!

- Airfreight – consolidation & direct options
- European door-to-door delivery by road – standard & express options
- Sea Freight – competitive LCL & FCL routings
- Project Cargo – out of gauge, conventional & charters
- Cross Trades – to & from anywhere in the world

### IMPORT FREIGHT SPECIALISTS

Imports into the UK continue to grow at a phenomenal pace and the Spatial team are here to help manage your supply chain from door to door.

Spatial's status as an authorised agent enables us to be electronically networked with all UK ports of entry. This allows for quick and efficient customs clearance for air, sea, trailer or courier shipments.

Of course, UK customs clearance is only part of the story. Strong bonds with our worldwide agents have enabled us to develop our dedicated Far East service with confidence. With their expertise and local knowledge, they oversee all aspects of the export procedures and build relationships with your suppliers, thus providing the complete import service for our customers.

To get the best financial terms for your shipment, avail yourself of our class A bonded warehouse. Pay your VAT & duty only when the goods are needed, not when they arrive in the UK.

- Full import clearance service
- Class A bonded warehouse
- Dedicated Far East service
- Purchase order management service.

Freightworks provides a supreme service in all aspects of international distribution.

**Recognised as a benchmark of quality, we strive to keep our services efficient, secure and uncomplicated,**

As a Freight Forwarder, we provide skills and expertise across all modes of transport, while as a provider of logistical services we demonstrate our creativity and flexibility with the addition of our more specialised products. It is our professionalism in all aspects of our operation that gives our clients the confidence to concentrate on core activities, while we take care of the rest.

The Spatial Group is a member of IATA, BIFA and BACA and a Department for Transport Regulated Agent.

# WORLDWIDE - AIR, SEA AND ROAD DELIVERY DETAILS

For your Worldwide consignments with maximum flexibility.

## SPECIALISTS IN INTERNATIONAL SHIPPING DOCUMENTATION

Our in-house team of export documentation specialists are devoted to securing you prompt payment for your shipment. Working as an extension to your business, our shipping department are on hand to help guide your consignment through the ever-changing minefield of export rules, regulations and requirements.

Spatial's services can be utilised either contractually, as a fully outsourced solution, or on an ad-hoc basis. Either method will allow shippers to maximise their export potential, confident that our expertise and knowledge will assist in the smooth movement of shipments and, most importantly, in securing payment quickly and efficiently from overseas.

It is our role to understand your needs and your consignees' requirements. To ensure compliance with up to date export legislation and any legal obligations for the countries that you are exporting to.

Regarding Letter of Credit shipments, our staff are trained to international banking standards and work with you from receipt of draft L/C, through shipment, document preparation and bank presentation to final payment.

## IMPORT PURCHASE ORDER MANAGEMENT

Our unique Purchase Order Management System has become an indispensable tool for many of our clients. Customised to monitor and manage your supply chain from door to door, it keeps importers fully up to date with the progress of their shipments.

With your order details entered on to our software, you can track your deliveries on line and in real time. Tracking options include, by supplier, origin and container or right down to the individual lines. You have the information necessary for the consignment to be controlled and driven by you, while handled and managed by us.

## 'CLASS A' BONDED WAREHOUSE

Spatial currently operate two bonded facilities to the benefit of all of our customers.

Shipments are cleared into the bonded facility and held in a secure, customs controlled area. All stock movements in and out of the facility are controlled via Spatial Logistics, who electronically bar code all items to ensure complete control and peace of mind for all parties.

By utilising our bonded facility, we offer the ability to delay duties and taxes until a sale is completed. With peak season charges and increasing capacity issues on inbound vessels, it makes operational sense to get your shipments into the UK and held centrally, ensuring quick delivery to your customers once a sale is made.

For further information on these services, call 01332 815403/4 or visit us on line at [www.the-spatial-group.com](http://www.the-spatial-group.com)
